

Authorized Performance of Essential Infrastructure Work

DRYCO is carefully following all CDC guidelines in order to provide critical infrastructure services to essential businesses as defined by the Department of Homeland Security and the California Department of Health and Safety. It is our top priority to ensure that all of our employees have a safe working environment and that we meet or exceed all protocols for health and safety in each of the counties that we perform business in. As long as we are permitted and able to do so safely, we will continue to help state and local authorities and essential businesses continue to perform their critical services—always remaining in compliance with the strictest standards.

DATE(S) OF WORK: _____ **PROPERTY OWNER:** _____

JOBSITE: _____

This work is categorized as Essential Construction per the State and County orders under the following qualification(s):

- Projects immediately necessary to the maintenance, operation, or repair of Essential Infrastructure
- Projects associated with Healthcare Operations, including creating or expanding Healthcare Operations, provided that such construction is directly related to the COVID-19 response
- Affordable housing that is or will be income-restricted, including multi-unit or mixed-use developments containing at least 10% income-restricted units
- Public works projects if specifically designated as an Essential Governmental Function by the lead governmental agency
- Shelters and temporary housing, but not including hotels or motels
- Projects immediately necessary to provide critical non-commercial services to individuals experiencing homelessness, elderly persons, persons who are economically disadvantaged, and persons with special needs
- Construction necessary to ensure that existing construction sites that must be shut down under this Order are left in a safe and secure manner, but only to the extent necessary to do so
- Construction or repair necessary to ensure that residences and buildings containing Essential Businesses are safe, sanitary, or habitable to the extent such construction or repair cannot reasonably be delayed
